Taft-Hartley Labor Measure Enacted Into Law By Senate Vote, 68 to 25

18,500 Coal Miners Quit Jobs in 3 States

PITTSBURGH, June 23 (AP)—Sporadic walkouts in four soft-coal producing states today shut down at least 34 mines and idled more than 18,500 workers within a few hours of the Senate action over-riding President Truman's veto of the Taft-Hartley labor bill.

No official of the AFL-United Mine Workers would comment publicly on the closings.

The idle, by states:

Pennsylvania, 10 mines, 8600 men; Alabama, 12 and 6000; West Virginia, 9 and 2600; Ohio, 3 and 1500.

The latest reported closings came in Southeastern Ohio when workers failed to report for the midnight shift at three operations.

The pits closed in Western Pennsylvania were mostly those supplying fuel for steel mills. They included three H. C. Frick Coke company mines in Fayette county and one in Washington county, two Jones & Laughlin Steel corporation mines and one each of Re-

CHAMBER SNUBS LAST-MINUTE TRUMAN PLEA

President's Setback Gives Legislation Six More Votes Than Needed for Passage

WASHINGTON, June 23 (AP)—The Taft-Hartley labor bill became the law of the land today.

The Senate overrode President Truman's veto and his all-out opposition, 68 to 25.

This was six votes more than the required two-thirds majority—more even than the bill's supporters had expected.

And the chamber spurned a final appeal which the President sent by Democratic Leader Barkley (Ky.) two hours before the roll call.

The President insisted that "this dangerous legislation" will hurt "our national unity" and so "render a distinct disservice not only to this nation but to the world."

Happy Times Ahead — Thanks to Salvation Army

TEACHERS' PAY TO BE BOOSTED \$200 OR BETTER

New Salary Schedules Here, North Coventry to Conform to New Law

Salaries of Pottstown and North Coventry school teachers will be raised at least \$200 next year as a result of the passage of the teachers' pay bill by the State legislature, it was announced yesterday.

Dr. Frank M. Haist, Pottstown superintendent of schools, and Paul H. Grim, supervising principal of North Coventry High school, said the new salary schedules being compiled in conformance with the recent act will assure at least \$200 more for each teacher. In some instances, depending on the qualifications of the individual teacher, the increase may be substantially greater.

The new act sets \$1950 as the minimum yearly salary for teachers with a standard certificate, but carries added provision for those with higher certifications. A minimum of \$2000 is established for those teachers holding a bachelor's degree, while those with master's degrees from approved universities will receive \$2200.

Provision also is made for a series of five yearly increments of \$150 each to boost the salaries of teachers with only a teacher's certificate to a maximum of \$2700, while those holding bachelor's or master's degrees receive eight increments of \$150 bringing their maximums to \$3200 and \$3400 respectively.

All teachers will automatically be brought up to their proper levels and will receive the first of their increments when they return to the schools in the Fall.

This will make the pay increases for some teachers greater than for others, Grim declared. If, at present, a teacher mid-way between \$1500 and \$1650 is scheduled, he will be raised to the next highest level and then will receive his first increment.

"The increases in salaries," Dr. Haist said yesterday, "will be paid out of increased taxes because of increased assessments, additional appropriations from the State, and other available sources."

While the State appropriation will be increased approximately 20 percent, Haist pointed out that it covers only slightly more than 30 percent of the whole cost in Pottstown. The school board will have to raise the remainder next year.

Although the new law assures Pottstown teachers at least a \$200 increase, a statement by the school board at its last meeting that salaries will be raised "10 percent or better" indicates that the raise for Pottstown teachers probably will range between \$250 and \$500, depending on the degrees they hold.

The act also establishes minimum salaries for supervisors and principals.

Big Three of Europe To Confer on Aid Plan

By JOSEPH E. DYNAN

PARIS, June 23 (AP)—Hopes for a revival of Europe's economy soared tonight as the foreign ministers of Britain, France and Russia made a date to meet in Paris next Friday to discuss the American offer of aid in continental reconstruction.

The French government expressed "lively satisfaction" with Russia's agreement to examine the Marshall program. British Foreign Secretary Ernest Bevin told the House of Commons in London that he "welcomed" Russia's acceptance of a British-French invitation to the conference, and that "I hope good results will follow."

AFL CHIEF CALLS FOR ACT REPEAL

Labor Law a 'Mistake,' He Says; GOP Appeals For Fair Enforcement

WASHINGTON, June 23 (AP)—William Green, president of the AFL, announced a campaign to repeal the Taft-Hartley Labor act as soon as the Senate had passed it today.

Republicans called upon the President and his aides to administer it fairly.

And President Truman, who had called it "unworkable" in his veto message and "dangerous" in a new appeal today, had no further comment. A secretary told him of the Senate's action as he worked on other matters in his office.

Rep. Halleck, of Indiana, House Republican leader, appealed to the President to co-operate with Congress, declaring in a statement:

"The country now expects the new labor-management law to be administered fairly and efficiently, and with a will to settle industrial disputes amicably under the reasonable procedures provided."

Halleck said that although Mr. Truman fought the bill, "it is his responsibility to see that only persons with a will to make the law work be chosen to administer it."

"The new law must not be sabotaged," he continued. "Congress will be watching, and so will the people, to see that there is no ham-stringing of the act through failures in the executive branch."

Senator Jenner (R-Ind.) also issued a statement asserting that "the greatest danger now is that New Deal administrators will sabotage the law."

Senator Taft (R-Ohio), co-author of the act, previously had expressed confidence that Mr. Truman will do his best with it.

CIO President Phillip Murray called the CIO executive board to meet here Friday to "assess" the situation "which now confronts American labor."

Murray also called a meeting of CIO legal representatives for Thursday.

Green said the AFL will launch an immediate campaign "for the prompt repeal" of the act.

"Congress has made a tragic mistake," Green said in a statement. "The new law will not promote industrial peace. The consequences are likely to be heavy and costly" (Continued on Page Nine)

'Ike' May Accept Post At Columbia, Paper Says

NEW YORK, June 23 (AP)—The New York Herald Tribune says in a dispatch from Washington that Gen. Dwight D. Eisenhower "may accept appointment tomorrow as president of Columbia university."

The newspaper quoted a "source close to the general" as saying the army chief of staff has prepared a statement to be submitted to a meeting of the university's board of trustees here tomorrow afternoon.

This source, the newspaper added, "said he believed the statement to be a conditional acceptance of the appointment previously offered by the board under which General Eisenhower would not take the post until the middle of next year, and then only after approval of his retirement by President Truman."

Salvation Army Gives Boys Summer Camping Treat

Nine Pottstown boys who otherwise would have had nothing better to look forward to this Summer than the stifling heat of parched streets unrelieved by any visit to the great outdoors yesterday were packed off for camp by the Salvation Army.

The youngsters, aged eight to 15, mostly members of the local post's Sunday school, will be guests of the camp in Upland, a mile from Chester, for eight weeks. During that time they will participate in all kinds of outdoor activity close to the hearts of boys.

On the curriculum is swimming, hiking, and all kinds of sports and hobbies. The price, per boy, which includes everything, is a dollar a day. The "Army" auxiliary, headed by Mrs. A. A. Gallo, foots the bill.

The camp, situated in several hundred acres rolling land, has 18 buildings, 12 bungalows and six cottages. Each cottage sleeps 20 boys and eight can fit into the bungalows. Each unit has a counselor supervising.

Captain Meral Cox, of the local Salvation Army station, packed the boys in the post's canteen truck and took them to the big Salvation Army camp which can house a maximum of 200.

Some of the luggage in which the boys transported their belongings was donated by local residents in response to a plea printed in The Mercury, Cox said.

A week from today Captain Cox will make another trip to the camp to pick up the boys. He expects to find them happy that they went, but sad they have to come home so soon.

Woman Jumps Off Liner With Bag of Jewels

NEW YORK, June 23 (AP)—A 32-year-old Philadelphia woman, clutching a fortune in money and jewels, leaped to her death from the liner Saturnia into the Mediterranean sea alongside the ship and 15 minutes later was rescued by seamen, the Saturnia's master related today.

Capt. Arrigo G. Gladulich, commander of the Italian liner which docked today, identified the woman as Mrs. Eliana Pezzini Turillazzi, Philadelphia-born, and said she carried a handbag containing \$150,000 in cash and traveler's checks alone on her fantastic plunge into the sea.

He gave this version of the incident:

"The woman was sitting quietly on the board deck May 30 as the Saturnia steamed off Gibraltar. Suddenly, she removed her coat, ran to the rail and dived headfirst into the water. She landed in the vessel's wake."

"I was on the bridge and I had the ship put about," he said. Presently we saw her swimming with swift strokes, still holding her handbag. She swam abreast of the bridge and looked up at me."

A boat was lowered, he said, and "she was pulled out of the water by the hair."

Enactment of Labor Bill Brings Sharp Split in Opinions Here

By ED ROSENBERG (Mercury Staff Writer)

The enactment into law of the Taft-Hartley labor bill yesterday found Pottstownians with definite, and somewhat violent opinions about the measure, and from the seething controversy emerged a pattern of attitudes—universal opposition by labor union officials, a reluctance on the part of management representatives to commit themselves, and from the man-in-the-street, a range of expressions from almost complete ignorance of the bill to a sometimes unprintable analysis of its provisions.

Plant managers and presidents of virtually all local industries were queried on their personal opinion of the act, and what they considered would be the results of its enforcement, but with one exception they refused comment, on the grounds that they had to study the measure further, and that any expression on their part would be taken as representing their plant.

The one exception was Robert Mercer, manager of Metal Masters company, who said:

"My personal opinion is that the act makes the situation a little fairer. It gives the employer what labor has had all (Continued on Page Five)

Here Is How New Labor Law Affects Unions

WASHINGTON, June 23 (AP)—Final passage of the Taft-Hartley bill today made it the law that unions:

MAY BE sued by employers for breach of contract and for damages in jurisdictional strikes and secondary boycotts.

ARE REQUIRED by law to bargain collectively with employers.

MAY NOT compel employers to hire only union members, but still may enter into agreements providing that all employees join the union under certain conditions.

MAY NOT bargain for foreman and supervisors.

MUST PUBLISH financial statements.

MAY NOT require employers to deduct union dues from any employees unless the workers agree.

LOSE THEIR rights under the Wagner Act if any officer is a Communist or active sympathizer.

MAY NOT make certain contributions and expenditures for political purposes.

ARE FORBIDDEN to engage in certain practices held "unfair."

It also is the law now that the government:

MAY GET injunctions against unions to stall off for 80 days a strike which would affect the national health or safety.

SET UP a new conciliation service outside the labor department.

ENLARGE the national labor relations board from three to five members and overhaul the way it works.

ESTABLISH a 14-member Senate-House committee to study labor-management relations.

Explosion in Heater Rocks Shenkel Home

The Shenkel home of Melvin Arion was rocked by a powerful explosion early yesterday morning when the coal heater in his cellar blew up, demolishing the heater and ripping the cellar door and two windows from their frames.

Arion said he believed the blast was created by dynamite in the coal. A coal gas explosion would not have been so violent, he said. The force was so great that two heavy iron grates in the bottom of the furnace were blown 25 feet across the room.

Red hot coals in the heater at the time were scattered about the cellar and started some small blazes among piles of goods there, he said. Using the garden hose, he brought these under control quickly, however.

To make sure that no other fires would break out later, Arion called the Good Will Fire company, which dispatched an engine to the scene. Its services were not required. The explosion occurred at 1 a. m.

Burglary Attempt Made At High Street Storeroom

Police made an investigation yesterday morning at the New York Department store, where it was believed someone made an attempt early yesterday morning to gain entrance into the rear of the storeroom at 240 High street.

Patrolman Paul Bridgeham investigated. He found that a prowler had cut some screening from a door at the rear of the storeroom. The prowler apparently became discouraged when he discovered there was a steel door inside of the screen door. No attempt was made to force the steel door.

Barbers Recall Era When Shops Weren't Only Man's Domain

By SONIA STEIN (Mercury Staff Writer)

Back in the "good old 20s" when bathing suits resembled togas, and men weren't quite so wary of women's styles as they are today, it was almost habit for the fair sex to sit in the barber shop line with male companions and await their turn for a shunkle bob.

Gone were the barber shops that were once as exclusively masculine as an old-time saloon.

But with the advent of intricate hair-dos and the ever-puzzling up-do, came also a clean shaven of women customers from barber shops. The new hair styles took time, and the 20-minute clipping was soon surpassed by a two-hour process of hair-nets, lacquer, bobby-pins and drivers.

Veteran barber George Dwyer, 11 North Hanover street, who has been in the business for some 50 years, can well remember the times when every other customer was a woman and they all waited on the door looking the same way.

Now he said, "the lucky if we have 20 women customers a week. That averages about one customer for each of my five barbers every week. And the ladies who do come in have been about so for years."

\$8500 Prize Money Attracts Top Talent To Bellewood Show

With cash prizes totaling \$8500 at stake, spectators will thrill to the accomplishments of the best-trained horse talent in the field this weekend when a throng of polished steeds, their owners and attendants, will converge upon the Bellewood Horse Show grounds of the Edward L. Gruber estate, along Route 83, Kenilworth.

Exceeding last year's amount in prizes, the possible take by champions this season will include nine Challenge trophies, and 14 smaller cup awards.

Participating in 66 different competitive classes will be hunters of several types, open jumpers, walking horses, roadsters, fine harness, three and five gaited saddle horses, and others.

Horse tents specially erected in the Bellewood farm area, with more under construction, are constantly being filled with the arrival of champion entries from eight Eastern states.

Bellewood's entertainment-packed three-day program is surpassed only by the National Horse Show held in Madison Square Garden. (Continued on Page Nine)

Arguments Heard on Elimination Of Kimberton-Eagle Rail Line

Arguments pro and con on abandonment of a six-mile stretch of the Phoenixville-Byers spur of the Reading railroad which would leave residents from Kimberton to Eagle without rail service were heard yesterday in the grand jury room in the Chester county courthouse, West Chester.

Hearing the two sides of the matter as presented by residents of the area who favor continuation of service and the Reading company which would abandon the line was a representative of the Interstate Commerce commission who will report the decision of the case at a later date.

Joseph N. Ewing, Byers attorney, who was engaged to present the views of the area residents, told the examiner, backed by testimony of local merchants, that the prices of all goods in the area will go up \$2 to \$3 a ton if the railroad is removed as a transportation source.

Last year, he explained, an average of two railroad cars a week brought loads of small stores, feed, coal, cement and fertilizer to the rural communities. If these goods were shipped in by truck prices of everything, including farmer produce, would soar, he said.

Attorneys for the railroad cited a (Continued on Page Nine)

Animal Story Gives Tipster Mercury Prize

An animal incident that developed into a story and news pictures was picked as best by judges in The Mercury's weekly news tip contest yesterday.

The tip came from Miss Doris Knepp, Gilbertsville, RD 1, who told a tale of a milk-frightening cat, injuring one, and then winding up a carcass when cornered in a coal bin.

The information won first prize of \$5.

Second prize of \$3 went to Mrs. Calvin Reed, Main street, Red Hill, who telephoned in a news tip on an automobile accident.

Mrs. Thomas Beretto, Kenilworth, won third prize of \$2 with a tip on another auto accident.

Every week The Mercury awards \$10 in prizes for newsworthy information. You can win on "spot" news tips, such as accidents, fatalities, etc., as well as on human or "heart" interest angles—such as animal wars, notices of unusual weddings, etc.

Phone your tips to Pottstown 2263.

Marshall Appeals for Authority to Furnish Latin America With Standardized Arms

WASHINGTON, June 23 (AP)—Secretary of State Marshall and Secretary of War Patterson told Congress today that the Western hemisphere nations will get munitions "elsewhere" if the U. S. will not supply them.

Both cabinet officers appeared before the House foreign affairs committee in support of President Truman's proposal to standardize the arms of Latin America and Canada with those of the United States. Under the bill a standard defense could be set up for the new world from the Arctic to Cape Horn.

The witnesses emphasized that Mr. Truman's program is consistent with the United Nations charter.

Under the bill, the U. S. could:

1. Transfer arms and munitions to other nations of the Western hemisphere.
2. Train their soldiers, sailors and air men in methods used by the U. S.
3. Maintain and repair planes, tanks, guns and ships of the new world nations.

Rep. Mansfield (D-Mont) asked Marshall to produce a "secret letter" written to the War Department in March by Undersecretary of State Dean Acheson. Mansfield said this letter opposed the standardization program.

Marshall replied that it would not be in the "public interest in relations with Latin America" to make it public. He suggested instead that the letter be read to the committee in closed session.

Mansfield agreed, but said he understood that portions of the letter had "leaked" out of the State department. Later, when Patterson was testifying, he asked that the letter be read in reply to Acheson also be read to the committee.

Water Ends Farmer's Hopes of Raising Crop; Ninth Body Recovered

CAMBRIDGE, Neb., June 23 (AP)—High water following flash floods and tornadoes which already have taken 16 lives in Nebraska boiled downstream tonight and threatened new areas with inundation.

Danger spots, widely scattered, included Ewing in Northeast Nebraska, Gibbon in Central Nebraska, Auburn in Southeast Nebraska and Ashland and Columbus in Eastern Nebraska. Each was threatened or partially flooded by streams swollen by yesterday's torrential rains.

For the fourth time this year Salt Creek flooded a low-lying part of Ashland. Two churches in which refugees of last week's Ashland flood were fed and housed until Saturday night were opened up again.

As in most of the state, the Ashland flood ended some farmers hopes of raising a 1947 crop. Land flooded several times and replanted again will not be in shape in time to assure an adequately long growing season.

Meanwhile the body of Mrs. Retha Mayor was found here, bringing to nine the number of bodies recovered after yesterday's flash flood. The rapid drainoff of flood waters facilitated the search for the bodies of four others known to have drowned.

Funds for Navy Given Boost By Senate Unit

WASHINGTON, June 23 (AP)—The Senate appropriations committee today voted \$3,462,000,000 in new money for the Navy in the year starting July 1. Senator Saltonstall (R-Mass.) said it will give the nation "a powerful, well-balanced fleet" of some 850 craft.

The sum is \$176,500,000 more than the House approved. But Saltonstall, chairman of a subcommittee which considered the funds, said that \$161,000,000 in old unused appropriations for other purposes were canceled. Thus, he said, the net increase in usable funds is only \$15,500,000.

With the \$3,462,000,000 grant, which must still receive Senate approval, the committee served notice that it expects the Navy to keep a tight watch on expenditures—both of new funds and those carried over from previous years.

"The committee expects that the Navy will administer its programs so that the expenditures in fiscal 1948 will not exceed \$4,105,000,000," the committee's report said.

Saltonstall told reporters that the committee's action permits operation of the same number of ships requested by President Truman in his budget recommendations.

Job of Finding Bugsy Siegel's Slayer Will Be Hard One, Says Chief Deputy D. A.

BEVERLY HILLS, Calif., June 23 (AP)—A district attorney's aide suggested today that the job of finding the slayer of Benjamin (Bugsy) Siegel, man-about-Hollywood, gambler and one-time public enemy, might be a tough one.

Said S. Ernest Roll, chief deputy district attorney, following a conference with police:

"Frankly, it's going to be a hard job to get to the bottom of this thing. There might have been a hundred different people who wanted Siegel out of the way."

The dapper, 42-year-old Bugsy was shot to death about midnight Friday, as he sat reading a newspaper in the home of a friend, Virginia Hill, heiress now reported en route to Paris. With him was Allen Smiley, sportsman, who dove to the floor at the first round of the shooting and escaped unhurt.

The extent of Siegel's enterprises was known, apparently, only to the underworld. A friend said he controlled completely the making of race books in Southern California. He was a stockholder in the Flamingo, one of Las Vegas' best known gambling clubs. Thomas E. Dewey, when he was district attorney of New York, had named him a public enemy.

Police chief C. H. Anderson said there was no indication that Siegel's Las Vegas connections had anything to do—at least directly—with the slaying. Returning from New York yesterday, Anderson said he had

Oil Tidelands Off Coast Belong To Government, Court Decides

WASHINGTON, June 23 (AP)—The Supreme court decided today that the oil-rich lands between low tide mark and the three-mile limit belong to the Federal Government, not the states.

The 6-2 decision reopened a controversy that has boiled, with political overtones, for years.

It ran counter to the views of Congress as reflected in a bill passed last session which would have yielded any federal title to the states. President Truman vetoed it to let the court decide.

Rep. Bradley (R-Calif) announced that new legislation for the same purpose now will be introduced.

Meanwhile Warren W. Gardner, assistant secretary of the interior, told producers now leasing these lands from California to "go ahead with their work" in view of possible oil shortages next winter and "not get too worried" about the decision.

Gardner told newsmen that Secretary of the Interior Krug, like Harold L. Ickes before him, has given assurance that the oil men will not be held accountable by the Federal Government for oil they have taken from these lands under leases from the states.

President Truman, however, was said by Attorney General Clark to

be planning to ask Congress to decide upon a policy. This could call for the Federal Government's leasing the lands to private producers, or keeping the oil as a reserve for the Navy—or, as Congress sought to do, turning over the lands to the states.

Many early New England homes had secret hiding closets for the protection of women and children during Indian attacks.

Armed Thugs Truss Club Employees at Reading, Get Cash

READING, June 23—Three thugs, masked and brandishing revolvers, forced their way into the Reading Country club early this morning, and escaped with well over \$1000 after trussing two club employees and smashing open a three-quarter ton safe.

Following a warning, "Don't move or we'll kill you," issued by the smaller of the trio, Charles E. Allen, a houseman, and Earl M. Francis, a kitchen man, were trussed in torturous fashion with electric cord. The huge vault, made of steel and concrete was then forced open with sledge hammers after the gunmen tipped it over sideways on two large divan pillows to deaden the sound.

In addition to \$1100 taken from the safe, one of the robbers lifted \$350 from Allen's wallet, took between \$125 and \$150 in coins which Allen had hidden in a closet in his club bedroom, and \$150 belonging to another employee not present during the night.

Francis' arms were tied to the top of the headboard of an old-fashioned metal bed, and his ankles were fastened to the foot of the bed. Allen had his feet tied to the bottom of the bed post and his neck to the leg of a bureau in such a manner that, if he attempted movement, the cord about his neck would gag him.

Allen required two hours to free himself and his assistant, after they heard what was believed to be the sound of the getaway car. West Reading State police, who are investigating the looting, believe the gunmen's vehicle was parked along the south side of the club's golf course on a road connecting the Philadelphia highway and Jacksonwald, rather than near the clubhouse. Police ask that anyone seeing a car parked in that area between 3 a.m. and daybreak yesterday morning, contact them.

The loss is not covered by insurance, according to A. W. Golden, president of the club.

Mauger Child Released From Pottstown Hospital

Dennis Mauger, 2, son of Mr. and Mrs. Russell Mauger, 13 King street, was discharged from Pottstown hospital yesterday. The child narrowly escaped serious injury when he was struck by a coal truck at the Owls lot, King street near Manatawny, early Sunday night.

The tot was discharged after X-ray photographs showed there were no serious injuries.

The operator of the truck, Lester W. Deloplane, 29, of 1084 Center avenue, who was locked up by police on a charge of operating a vehicle while under the influence of intoxicating liquor, was released under \$500 bail at 12:30 o'clock yesterday afternoon. Deloplane waived a hearing.

Patrolman Stanley Borowy had sworn out a warrant for the arrest of Deloplane before Justice of the Peace Raymond C. Kelley, of the Second ward.

Crafts and Hobbies To Keep Boys Busy At Day Camp Here

Co-sponsored by the Pottstown Lions club and the YMCA, the Day Camp will open Monday at 9 a.m. in the YMCA building.

Running for six weeks, with James F. Baird, youth work director in charge of the entire program, the schedule will include crafts and hobbies, with leatherwork, plaster molding, woodburning, whittling, and plastics work on the agenda. The craftwork division will be directed by Mrs. Ethel Patterson, game room supervisor of the YMCA boys' department.

In addition, outdoor activities, sports, and overnight trips, have been planned. The program will be run on a point-scoring system, devised to increase interest among the participating boys.

Each week a talk will be given in the YMCA auditorium, with local ministers scheduled for the discussion periods, to be held from 9-10 a.m.

The roster of speakers is: Monday, the Rev. W. Reed Teltworth, pastor of St. James Evangelical and Reformed church, Limerick; Friday, July 11, the Rev. A. Burtis Hallock, pastor of the First Presbyterian church; Friday, July 18, the Rev. Delaine E. Story, pastor of the First Baptist church; Friday, July 25, the Rev. George A. Lineker, pastor of Christ Episcopal church; Friday, Aug. 1, Dr. Emil Schorsch, rabbi of Congregation Mercey and Truth, and Friday, Aug. 8, the Rev. James D. The man who does his work, any work, conscientiously, must always be in one sense a great man.—Mulock.

Save Pottstown!
BURGESS WILLIAM A. GRIFFITH, of Pottstown, has called a conference of contractors and realtors for Thursday night to discuss means to relieve Pottstown's severe housing shortage.
It is a commendable move, because an Associated Press national survey just completed showed that the housing shortage is more critical than a year ago.
The national cross-section disclosed:
1. Almost 40 percent fewer houses were started this Spring than last.
2. Average construction cost was up 23 percent.
3. Number of families evicted amounted to more than 13 times the total of new dwellings erected.
Pottstown is no different from any other part of the nation. All those disclosures probably obtain here.

While the need for new housing has been estimated as high as 10,000,000 units, only 37,514 new homes and apartments were started in 1947 in the first quarter of 1947. Sixty-three of the cities had waiting lists showing 370,773 families without homes; only 25,238 dwelling units were started in those cities.
Last year, 61,795 new dwelling units got under way in the same period in the 137 cities.
According to figures of the Bureau of Labor Statistics, housing starts through May were still below the disappointing volume for the reconversion period of last year's first five months. For example, the number of dwellings started by private builders in the New York area was still 59 percent below the first five months of 1946.
Estimated construction costs, without land or extras, amounted to \$207,139,485 for the dwellings started in the first three months this year. The first quarter total in 1946 was \$278,758,950 for the much larger number of units.
Thus the average estimated building cost was \$5548.31 per dwelling unit this year, in contrast to \$4512.65 per unit a year ago.
However, those averages embrace both private homes and apartments. Some of the increase also may be accounted for in the number of emergency temporary dwellings provided for GI students and their families in the early part of last year.
The Dow Service, Inc., specialists in national building reports, finds that residential construction costs are about 30 percent above the first quarter of 1946.

Pottstown faces many evictions at Penn Village.
These persons must be cared for or the borough will face a calamity.
Pottstown's contractors should be able to find a way out of the dilemma. It will take cooperation. But that should be forthcoming in view of the desperate need.
If Pottstown is to thrive, civic pride must win over self-interest in this case.

Movie Measure
HOLLYWOOD has hit upon a sure-fire method for telling whether or not a motion picture is going over with the children. It judges audience reaction by the wriggles. If there are too many of them, the film isn't interesting enough. It's such a good idea that we think it ought to be applied to adult audiences, too.
If the adult audience is restive, the interest value of the movie is probably little better than colossal. If people here and there give up following what is in progress on the screen and enter into prolonged conversations with each other, there is reason to suspect that the thing is not going over too well. And if spectators start getting up and leaving before it's over, the film should be limited to use on the second spot of a double feature.

Apple Growers Win
FOR 60 years apple growers have battled the codling moth; but now—thanks to DDT—the end may be in sight.
Last year growers in the state of Washington controlled the moth better with three or four sprays of DDT than they formerly had been able to do with nine or ten sprays of lead arsenate.
Continued use of DDT growers believe, will eliminate the codling moth to the extent that only one DDT spray a year will do the trick.
Various savings in labor and cost in the future are claimed, on only one fact: use of DDT does not kill ten times more woolly aphids. In fact these pests seem to multiply when DDT is used.

Consider Other Noises
To the Editor: Someone is objecting to the sound truck so let's also consider a few noises just as bad if not worse.
1. Your radio. Perhaps you enjoy certain programs which is your privilege, but why annoy your neighbors? You wouldn't yell at a member of your family in the house, so why have the radio blare? It's possible to hear it at a normal tone of voice.
2. Children. Take time to teach them how to play quietly and relax. The playgrounds are for rough and tumble games. Someone may have to sleep during the day in your block because he or she works night turn or because of illness.
3. Porch sitters and street loiterers. Why gossip and say ugly things about people who pass? Would you want them said about someone you loved or knew? It's childish as well. Every one has enough to tend his own family skeletons.
4. Animals. We humans mind the uncomfortable summer weather. What about our pets? Why not give them a little extra care? Being inconsiderate is a form of cruelty.
5. Cars. Is it necessary to let the neighbors know you are leaving a friend's house in the wee hours of the a. m. by slamming car doors and yelling "good night"?
Summertime, when the doors and windows are open, is truly a time to remember the rule of "Do unto others as you would have them do unto you."

Examples Are Needed
To the Editor: Stand up for Jesus.
Are we doing so by going to the horse show next Lord's Day? Think how He suffered and died for you and me on the cross. Why not listen to the commandment "Keep it holy"?
Today he calls us to weep with Him over a dying world, a world that is marching to sob and sighs and broken hearts everywhere.
Four young men were arrested and fined \$10 each for shooting off fireworks on a Sunday morning in Pottstown. If these men would have had better examples, this would not have happened.
Who is going to set the example if the professing Christians are seen at the horse show on the Lord's Day, and also at social, card and beer parties?
What can be expected of our young men and women?

The Worry Clinic

By DR. GEORGE W. CRANE
MARTHA F., 31, is a popular society woman.
"I have had such a time getting a French cook," she shook her head, resignedly, during dinner.
It seems so much easier to get a girl to look after the baby. But as for cooks, well, it's difficult to find one who can prepare all the special dishes that one must serve to important guests.
"Dr. Crane, my husband brings home many of his clients for dinner, you know, so it is quite important that we have the very best. I really worry more over my kitchen than the nursery."
It is not uncommon to see mothers overly concerned with such food worries. And if it isn't the French cook, then it may be the baby's formula. Modern mothers often make nervous wrecks of themselves over their infant's feeding schedule.
But many of them then fail to make adequate preparation for the baby's mental and moral intake. They may even spend twice as much in wages for a good cook as for the maid or governess who is to be in direct charge of the infant during his critical formative years.
By the time children enter kindergarten, their speech habits are pretty well entrenched. Thereafter they may add new words, thus increasing their vocabulary, but their dialect and accent, adoption of slang or sloven English, are fairly well established.
The proper time to build good speech habits, plus a sound moral outlook and a basic appreciation of good music and literature, is chiefly before school age.
Children thus differ widely when they enter the kindergarten or first grade. Some youngsters have previously used pencil and crayon, water colors and educational toys. They have had a stimulating environment where their parents have been their daily tutors.
Others, of equally good family stock, may be very deficient in their educational background. Some have looked forward longingly to the time they could go to school. Others will cry and scream in terror when they first enter the classroom.
A poor cook may temporarily upset the digestion of the family, but a poor nursemaid can color the lifelong outlook of the child. If necessary, let your stomachs suffer, but protect your child's moral and mental growth!
Pay a little more wages, and procure a nursemaid who can speak reasonably good English; who can play the piano well enough to teach your child some nursery and Sunday school songs.
Select a girl with religious training and a fondness for children. Many men generously take out insurance policies which guarantee their children money for a college education, but these same parents then try to save money by hiring the cheapest possible girl to tend their babies.
This procedure is certainly penny wise and pound foolish! The best time to sink your money in child education is during the first years of the youngster's life. An error then may cause lifelong damage.
It could be far better, too, if many parents of "tomorrow" children forgot the child's college education, and invested that money in one or two more babies so that he could have brothers and sisters with whom to play.
There are too many college misfits graduating from our universities. If they had had a normal home life with several brothers and sisters, they'd have much better personalities, be more likely to avoid divorce, and lead a happier existence.
Parents, the character building of your youngsters is your greatest responsibility. Quit worrying about the college education, and think about his pre-school years!

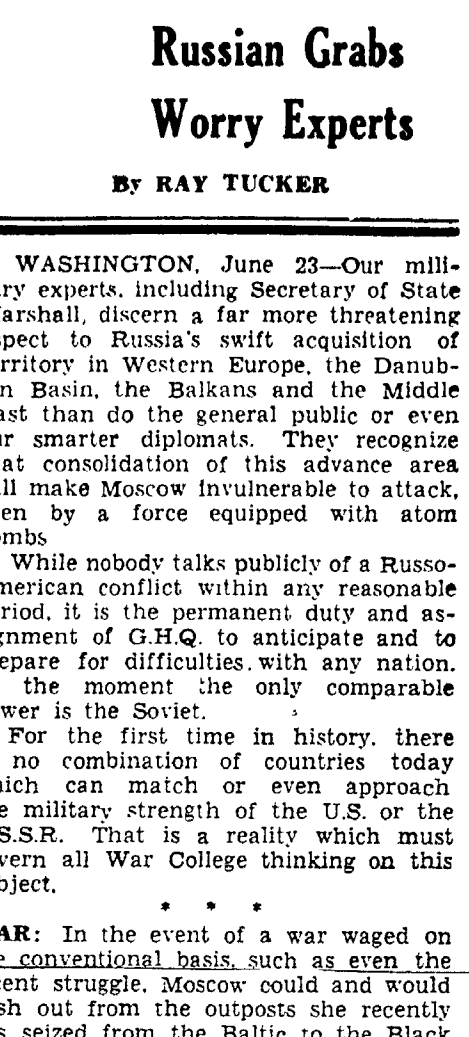

WASHINGTON, June 23—Our military experts, including Secretary of State Marshall, discern a far more threatening aspect to Russia's swift acquisition of territory in Western Europe, the Danubian Basin, the Balkans and the Middle East than do the general public or even our smarter diplomats. They recognize that consolidation of this advance area will make Moscow invulnerable to attack, even by a force equipped with atom bombs.
While nobody talks publicly of a Russo-American conflict within any reasonable period, it is the permanent duty and assignment of G.H.Q. to anticipate and to prepare for difficulties with any nation. At the moment the only comparable power is the Soviet.
For the first time in history, there is no combination of countries today which can match or even approach the military strength of the U.S. or the U.S.S.R. That is a reality which must govern all War College thinking on this subject.
WAR: In the event of a war waged on the conventional basis, such as even the recent struggle, Moscow could and would push out from the outposts she recently has seized from the Baltic to the Black Sea almost overnight. She probably could overrun and occupy all of Europe within three weeks.
Even assuming that the U.S. retains a fairly large force in Germany—a dubious assumption—we probably would be the victims of another Dunkirk, but on a larger scale.
Our troops are and will continue to be fairly green, while Stalin maintains veterans behind the "iron curtain"—the men who drove the Wehrmacht from the suburbs of Stalingrad to the heart of Berlin.
The battering of the Red machine, together with behind-the-scenes operations of his greatly expanded "fifth columns," would soon place his armies and air forces on a line extending, roughly, from the Baltic to Gibraltar and the Suez Canal.
In short, he could make Hitler look like a toy soldier!
IMPOSING: Stalin would have no powerful Japan in his rear. The Communist units in China, which have proved more than a match for Chiang Kai-shek's columns, would undoubtedly prevent the Generalissimo from giving aid to the western nations in that sector.
The Kremlin dictator would have another valuable asset. It would be almost impossible to prevent him from acquiring and operating the vast oil resources of the Middle East and Saudi Arabia. With India free and in turmoil, we would not be able to stop his encroachment in that strategic territory.
He would have the manpower which Hitler lacked, for it is estimated that his recent and prospective acquisitions will add more than 100,000,000 to Russia's present population of almost 200,000,000.
To match that imposing array would take all the men, women and children of the U.S., Canada, Britain, France, Germany, Spain and Italy, and at least the last four nations named would be under Stalin's military and central police control.
ADVANTAGES: Thus, he would possess all the advantages on which the outcome of wars ultimately depend—interior lines of operation, manpower, oil and other natural resources—a mighty machine as ruthless as Hitler's.
Finally, to the military men, the most significant fact in any analysis is that Russia, like Germany in the early stages of World War II, would be fighting entirely outside her own borders, and utilizing the industry, the labor and the agriculture of this far-flung area.
ATOM: Against such a setup, not even the atom bomb would prove as effective as generally believed, in the opinion of military students. There is also the consideration that, even in sheer desperation, the American people would be loath to let loose this weapon.
With the Red forces spread throughout Europe, would we drop nuclear missiles over friendly nations, especially as they resented the destruction which our mass air raids caused only a few years ago? Drenching Russia would prove a formidable and tedious task, and might be largely an atomic war against women and children, for their fighting men would not be at home on the day or night of the atom's arrival.
Thus, within a short time, the conflict would follow the pattern of the final stages of World War II, with no assurance that future Pattons could, first, land on a fortified Europe and, secondly, drive the enemy back to his homeland.
FACTORS: These are the practical, technical and strategic factors which our topnotch military students advance:
1. To disabuse the American people and Congressmen of the idea that Russia would be a "pushover," even in her present weakened state;
2. To emphasize the need for establishment of permanent peace under the aegis of the United Nations;
3. The awful necessity of setting up an international system for effective control of atomic energy in peace and war time.

2. The flag of what five nations have been raised over various parts of what is now the United States?

One-Minute Test Answers
1. \$250,000 in gold.
2. England, France, Spain, Holland and Russia.

Among other things discussed was the trouble she'd encountered in finding lumber to build a playhouse for her daughter. Returning home, a few days later, she found a crew of carpenters building the playhouse in her back yard. The visitor, she learned then, was the owner of a lumber yard.

Tomorrow's Problem

South took 11 tricks at that less-than-game contract after West led the club Q, largely due to East holding the intermediate honors under South's tenaces, and the same number of tricks would have been just as easy to take—with less risk—if the contract had been in spades. He was terrifically chagrined over North's pass of the 2-No Trumps. He meant that as a practical force upon North to choose between the two declarations he had named, either taking the No Trumps to three or taking it out to spades. If North had taken it to 3-Spades, South would have bid 4-Spades. If North had been slightly stronger than minimum and had taken the 2-No Trumps to 4-Spades, South would have probed for a slam.
North was really wrong in passing that call, but the more important offense was by South in giving him a chance to make such a costly error. South's correct second bid, if he thought North might have raised his spades on just three-card spades, with either just three spades, or with four of them in a 4-3-3-3 distribution, would have been sound. But with four trumps and a doubleton, he would have taken out to 4-Spades.

YOUR HEALTH

By HERMAN N. BUNDESEN, M. D.
THERE are no more powerful chemicals than those the body manufactures for its own use. That is why we get such strange and even bizarre diseases when one of these natural chemical plants misbehaves.
Take the tiny bits of glandular tissue known as the parathyroids for instance. Located in the neck just beneath the thyroid gland, these little glands form a secretion which empties directly into the blood stream where it controls the body's use of calcium or lime. When too much of this secretion is formed, calcium is lost from the body wholesale, until even the bones are robbed of their chief constituent.
This disorder of increased secretion from the parathyroid glands is known as hyperparathyroidism. It occurs twice as often in women as in men, according to Dr. Christopher John McLaughlin of Atlanta. It usually develops in adults but has been reported in children as young as twelve years of age.
Hyperparathyroidism gradually starts with such symptoms as muscular weakness, loss of appetite, sickness to the stomach, fatigue, constipation, and pain in the bones. These symptoms are probably due to an excessive amount of calcium, or lime, in the blood. Increased thirst, as well as the secretion of large amounts of urine, also are present.
The condition may affect the urinary tract causing pain, irritation of the bladder, and blood and pus in the urine. Because the lime is taken from the bones, there are weakness, aches and pains in the joints, and loss of weight. A broken bone may follow some slight injury.
Laboratory examination is helpful in making a diagnosis of hyperparathyroidism. There will be found an increase in the amount of calcium in the blood, with a lessening of the amount of phosphorus in the blood. There is also an increase in the amount of calcium and phosphorus in the urine. X-rays of the bones may show cysts or sacs containing fluid within the bone structures.
Once the diagnosis is made, the treatment consists either in the removal of a tumor in the parathyroids responsible for increased secretion from the glands, or removal of some of the parathyroid tissue. X-ray treatment of the parathyroid glands has been tried but has not been found successful.
It is encouraging to note that with the proper surgery, a complete cure of the condition results.

Voice of Broadway

By DOROTHY KILLGALLEN
Last Week in New York
AND WHAT a week of divers and colorful events! Cowboys in town, and much-discussed "The Hucksters" playing to packed preview audiences (about 50 percent ad agency men, who couldn't wait) and bright kaleidoscopic nylons—pink, purple and blue, I mean—making eyeglasses out of the legs of pretty celebrities in the plush places... Autograph fiends, who usually haunt theatres, hotels and night clubs, did business at a new stand—outside a gilt-edged sporting goods store on Madison Avenue—when a rumor spread that Bob Hope was inside buying golf clubs... And the fanatic followers of Bob Walker went in for a new fad: wearing heavy tortoise-rimmed eyeglasses just like their hero's.
"Arturo Toscanini, taking his third or fourth look at "The Medium" and "The Telephone," attended the theatre in a pair of well-worn bedroom slippers... Ava Gardner curved her way about the town's hot spots wearing the shortest haircut since Lucius Beebe's crew cut and the longest day dress since hemlines dropped... And when Tommy Manville visited Leon & Eddie's with his former wife, Billie Boze, and her present spouse, Clarence Stroud, the gleesome Billie glared Eddie Davis with, "Of course you know my husbands, don't you?"

A Perfect Job...

Jay Walking a Menace...

DRESSER — Edgar C. Martin, who tills a farm down Limerick way, evidently turns a neat job at masquerade. Birds were making a hunting grounds of his acreage, so Martin decided to erect a scarecrow. He outfitted the scarecrow apparatus with some of his old clothing. A little later the Martin family had visitors, among them the farmer's grand-daughter. Martin was busy at some distant point on the farm. When the grandchild missed her grandpa, she looked around, spied the scarecrow. Martin had done such a fine job that the child insisted on going into the field where the scarecrow stood "To see grandpa!"
DANGER SPOT — As the whole country is alerted to the need for a automobile safety campaign, Borough Clerk William Shaeffer points out what he considers the most dangerous spot in Pottstown. It's that section of High street between Evans and Franklin streets. There, because many shoppers are attracted by large markets, the tendency to jaywalk is increased. And as jaywalkers take their lives into their hands, the accident rate is increased. Just the other night, a woman, carrying an infant in one arm and loaded down by bundles in the other arm, was struck by an auto in that vicinity. Fortunately, none was injured. But imagine a person weighted down that way, her vision obstructed, jaywalking across busy High street! It happened! And it may happen to you. Be careful!

SAVE YOUR LIFE!

Lightning storms should be commonplace by now. Want to be safest when lightning streaks across the sky? Jump into your auto! Its steel body gives excellent protection. Get into a house, barn or other building, but stay away from walls, doors, windows or chimneys. A steel building is the safest. Avoid open spaces, water, trees, wire fences, telephones, radios and electric wiring. Low trees are less dangerous than high ones. Don't worry about drafts. They won't cause lightning to strike you. It's true strong air currents change lightning's direction, but those strong currents may blow it away from you.
BOUNCER — One of the worst spots in Pottstown for the motorist is North Hanover street, just south of Third. It's a wonder the State highway department wouldn't eliminate those bumps! Many an auto axle is strained there... One more safety hint: If you ever get a cramp in your foot or leg in the middle of the night, leap out of bed, if there's a leap left in you. Point your toe up and your heel down with as much force as you can muster and the cramp will leave instantly.

MAIL BAG

This column thought nobody was forgotten at a wedding. But L. T. D. gives a new angle on the facts of life: "It's June and brides are planning their weddings," she writes. "In them etiquette and tradition are carried out more closely than at any other time. But, there's one person whom the book of rules obviously has overlooked. He's the faithful church janitor. I happen to be a church organist and realize fully the extra time it takes for these rehearsals and the weddings. He has to be on hand from the time the doors are opened until the last light can be put out, which is always long after the guests have departed. About the only time he ISN'T around is when the best man is handing out the little envelopes of appreciation. I think any bride would be more than happy to remember somebody who has done so much to make hers a lovely wedding—if only she were reminded."

BARBERS RECALL —

(Continued from Page One)

claims Dwyer, is "that a woman can get a much better trimming in the beauty parlor, where she is having her hair set, than she can by a barber."

Even feather-cuts are done by beauty parlor operators because of the special technique of cutting the hair to suit the waves.

But the lag in sales doesn't seem to worry the barbers. Men were either bashful or irritable in those days. At any rate, they half resented walking into a shop that was filled with women.

It limited the degree to which they could "feel at home," and consequently "drove away some of my customers," says George L. Betz, 135 North Hanover street "Women's hair styles? I don't want anything to do with them. I send them all next door."

And so there seems to have been a parting of the ways. Women now patronize their own beauty shops, and spend their time leisurely getting beautified, as well as catching up on the latest "Who's who" in Pottstown.

And there's an old saying that "what men talk about in barber shops shouldn't get any farther than the front door." So maybe it's better that way.

Mrs. Hannah Ziegler, Limerick, Dies at 91

Mrs. Hannah (Hornig) Ziegler, the oldest resident in Limerick, died at the home of her son, Howard J. Ziegler, yesterday morning, after an illness of one day. She was 91 years old, and had been active until she became bedfast Sunday.

She was born in Limerick and moved to Malvern, Ill., in 1868, remaining there for 16 years. At that time Mrs. Ziegler moved with her family to Mt. Airy, Berks county, and lived in that area until 1917 when she returned to Limerick where she had resided since.

Her husband, the Elder Jesse C. Ziegler, was a bishop in the Church of the Brethren, of Mingo, near Royersford. He died in 1918.

In addition to the son with whom she lived, Mrs. Ziegler is survived by two other sons, Warren H., of Elgin, Ill., and Harry H., of Trappe, Md.; 12 grandchildren, and 16 great-grandchildren.

Mrs. Ziegler was a member of her husband's church, and funeral services will be held there at 1:30 p.m. Friday, with burial in the adjoining cemetery.

Class of 21 Initiated By Moose Lodge Here

A class of 21 candidates were initiated last night into Pottstown lodge 369, Loyal Order of Moose, while applications for 11 others were received by the chair.

OPINIONS SPLIT —

the time, for the Wagner Act and the National Labor Relations Act were one-sided, giving unions free speech but denying it to the employer. In a democracy it should be just as fair for one side as for the other. An employer is not a criminal—he should have the same rights as labor.

"I don't believe labor will suffer under the act," he continued. "It may hurt the monopoly-minded big unions, but that's only as it should be. I've been glad to see labor make gains, and I hope it keeps them, but I think this bill will not hurt labor at all."

Officers of unions in local industries spoke as one man in denouncing the measure.

Robert E. Garber, treasurer of Local 336, United Rubber Workers of America, CIO, asserted, "I think it's going to break down all spirit of co-operation that's been built up by local unions and management since the Wagner act. It's one of the worst things that could have happened."

Harper R. Diener, president of Local 644, United Automobile Workers, CIO, agreed in his denunciation of the bill. "I'm definitely against it," the Spicer Manufacturing company worker maintained. "Nobody can tell what the outcome of it can be. The fact remains, however, that the bill very definitely has clauses in it that can create chaos in this country. That goes not only for labor but for small businessmen and management and everybody else who depends on labor."

The Montgomery-Chester counties Industrial Union council, CIO, meeting in Norristown last night, unanimously opposed the action of the House of Representatives and the Senate in overriding the President's veto of the bill.

"The delegates referred to yesterday as 'Black Monday,'" Robert B. Connor, president of the group, said last night. "They resolved to co-operate with the council's legislative committee in a program looking forward to the repeal of this vicious anti-American legislation."

Marvin Lipnack, 239 Lee avenue, an employee of Shuwall and company, clothing manufacturers, commented at length on the act.

"I think the bill is unworkable," he declared. "It will breed a lot of discontent and will start a wave of strikes around the country and undo a lot of good that labor-management groups did."

"Labor that did so much to win the war is now being penalized by a wave of hysteria," he went on, "and all progressive-minded people must support the President if they want to continue to have a high standard of living in this country. The worst part of it is, that the bill deprives labor of the gains it has made in the past 20 years."

Donald Fry, 625 North Evans street, a hosiery knitter at the Berkshire Knitting Mills in Reading, took a middle-of-the-road attitude toward the bill.

"In my opinion," he said, "I believe it may settle the unions down a little and help the work-

Warner, father of the labor relations act bearing his name, sent a message from his sick bed which the clerk read just before the roll call. He called upon his colleagues to uphold the veto and concluded: "The President would not lie at this critical moment in history."

ing man I'll help production and stop strikes every other week. As a whole, I think it will help the country."

Joseph E. Galligan, head of the Family Welfare society, was definitely for the measure. "I am very much in favor of it," he declared. "It will stabilize labor conditions and give business a chance to recover from the inequalities of the Wagner Act."

Finally representing an extreme pro-labor bill point of view, Dr. Caesar F. Sarni, 223 King street, emphasized, "I'm definitely anti-union, and I think the bill will work out well. It will bring down wages and prices and it gives the industries a fighting chance with the unions."

What To Do For That Sluggish, Down-and-Out Feeling

Remember the time when you could eat like a horse, bubbled-over with energy, felt happy as a lark? Was it not because you liked to eat—didn't know what indigestion was, felt strong as an ox? As age advances the "old stomach" and the ever-changing blood in need help. Now you may again release vibrant energy to every muscle, fibre, cell.

Every day—every hour—millions of tiny red blood cells must pour forth from the marrow of your bones to replace those that are worn-out. A low blood count may affect you in several ways: no appetite, underweight, no energy, a run-down condition, lack of resistance to infection and disease.

To get real relief you must keep up your blood strength. Medical authorities, by analysis of the blood, have by positive proof shown that SSS Tonic is amazingly effective in building up low blood strength in non-organic nutritional anemia. This is due to the SSS Tonic formula which contains special and potent activating ingredients.

Also, SSS Tonic helps you enjoy the food you eat by increasing the gastric digestive juice when it is non-organically too little or scanty—thus the stomach will have little cause to get balky with gas, bloating and give off that sour food taste.

Don't wait! Energize your body with rich, red-blood. Start on SSS Tonic now. As vigorous blood surges throughout your whole body, greater freshness and strength should make you eat better, sleep better, feel better, work better, play better, have a healthy color glow in your skin—firm flesh, fill out hollow places. Millions of bottles sold. Get a bottle from your drug store. SSS Tonic helps Build Sturdy Health.

Former Boyertown Residents Nominated For Post in Berks County Courthouse

The election of clerk of quarter sessions in the Berks county courthouse will apparently develop into an interesting election campaign with two former Boyertown residents, Ralph S. (Jeff) Dotterer and Calvin J. Kutz, as candidates.

Kutz, who formerly operated the Keystone hotel, Boyertown, and the Earlville hotel has been in the office the past four years and yesterday announced his nomination for re-election. He resided here a number of years and for several years has been living with his son, Grant Kutz, at the West Reading hotel.

Kutz began employment in the court house as an elevator operator and later was elected jury commissioner before his election to the clerk of quarter sessions post four years ago.

Dotterer, who is known to his many friends as "Jeff" has been active in the Charles B. Yerger post, 471, American Legion, following his discharge from the Army after World War I. He has held every elective office in the Yerger post to the office of commander. He was always an active politician, and

Auxiliary Visits Hospital; To Hold Picnic Tonight

Members of the adies' Auxiliary of Charles B. Yerger post, 471, American Legion, spent Saturday at the Veterans' hospital, Coatesville, where an American Legion Auxiliary Eastern District conference was held.

The local delegation included: Mrs. George Stauffer, president; Mrs. Murrell D. McKinstry, Mrs. Clarence A. Muthard, Mrs. Murray Crull, Miss Emma Heere, Mrs. Walter B. Nagel, Mrs. Elam Sieler and Mrs. James E. Bashore.

The auxiliary will conduct its annual picnic at the home of Mrs. Ralph S. Dotterer, along Route 100, Barto, tonight. Members are encouraged to meet at the Legion home, North Reading avenue, between 6 and 6:30 o'clock for transportation to the Dotterer home.

Communists Forge Ahead in Manchuria

PEIPING, June 23 (P)—Communists pressed a smashing new attack inside the battered Manchurian railway junction of Szepingkai today. Chinese press dispatches reported, with government defenders giving ground slowly in the old Eastern portion of the city.

A government relief column, driving southwestward from Changchun, was reported in possession of the Kungchuling area, 35 miles distant.

A heavy artillery duel, now in its tenth day, made life precarious for the population of Szepingkai.

Top government commanders were back on the job in Mukden after weekend conferences with Generalissimo Chiang Kai-shek, and the Manchurian fighting was expected to enter a new phase in a few days.

Some quarters, however, said that Chiang "favored hanging onto Manchurian cities even though the government position was becoming increasingly uncomfortable."

The winter of 1946-47 was the worst seen in England for 70 years.

Kimmel-Reynolds Nuptials Performed In Swarthmore

Wedding of Miss Dorothy Kimmel, daughter of Mr. and Mrs. Charles Kimmel, Morton, and Mr. William Reynolds, son of Mrs. Mary Reynolds, 370 Walnut street, took place Saturday afternoon at 2 o'clock in Swarthmore Methodist church, with the Rev. Roy Kleser, pastor, officiating at the double ring ceremony.

The bride was gowned in white satin and wore a finger tip veil. She carried a bouquet of gardenias, white carnations, snapdragons, and baby's breath.

June Lois Kaehler, Morton, as maid of honor, wore an aqua gown and carried a bouquet of gardenias and pink larkspur. Mrs. Allen Dugan, Morton, who attended as bridesmaid, was gowned in peach and carried a bouquet of gardenias and blue larkspur.

Mr. Edward Ryder, Yerkes, served as best man. Ushers were Mr. Allen Dugan, Morton, and Mr. Harold Gennaria, Collegeville.

Mrs. Kimmel, mother of the bride, wore a light colored silk dress with black accessories. Mrs. Reynolds, mother of the bridegroom, chose a gray dress with white accessories. Each wore a corsage of pink carnations.

Following a reception in DiFiori's restaurant, Aronominik, the couple left on a honeymoon trip to Ocean City, Md., and upon their return they will reside near Sanatoga.

Doris McFarland Is Married at Pretty Ceremony

First Presbyterian church was the scene Saturday afternoon at 3 o'clock of a pretty wedding when Miss Doris Louise McFarland, daughter of Mr. and Mrs. William McFarland, 854 Queen street, became the bride of Mr. Robert A. Maimone, son of Mr. and Mrs. Anthony Maimone.

The Rev. Curtis A. Hallock, pastor, officiated at the double ring ceremony.

The church was decorated with palms, white snapdragons and delphinium.

Preceding the ceremony, a recital of bridal music was presented by Mrs. Earl Yohn, organist, and Mrs. Joyce Leaver, soloist.

Given in marriage by her father, the bride wore a gown of white eyelet pique styled with a wide ruffle at the neckline, fitted bodice and a very full skirt which ended in a long train. Her fingertip veil fell from a beaded Juliette cap, and she carried a bouquet of white roses centered with an orchid and streamers of lover's knots. Her only jewelry was a string of pearls, gift of the bridegroom.

Joan Seidel, cousin of the bride, as junior bridesmaid, was gowned in blue marquisette and she carried a bouquet of carnations and delphinium with streamers of pink ribbon. Miss Verna Mauger and Miss Marie Reynolds in the role of bridesmaids wore pale green marquisette gowns and carried old-fashioned bouquets.

A brother of the bride, William McFarland, served as best man while George Seidel, Robert Biehle and Warren Mauger served as ushers.

A reception followed the ceremony in the social rooms of the church, after which the couple left on a trip to New York. Upon their return they will reside with the bride's parents.

For traveling the bride chose an aqua suit, brown accessories and the orchid from her bridal bouquet.

The bride is employed in the office of the Metropolitan Life Insurance company.

Mr. Maimone is employed by B. Shafer Sturges.

Guests attended from Easton, Stroudsburg, Reading, Birdsboro and Pottstown.

Miss Margaret Burder, daughter of Mr. and Mrs. Gustav Burder, Pottstown RD 2, and Carl Manwiller, son of Mr. and Mrs. Charles Manwiller, 318 East Philadelphia avenue, Boyertown, were united in marriage Saturday afternoon at 1:30 o'clock in St. James Lutheran church, High and Price streets.

The double ring ceremony was performed by the Rev. Gustav Weber, pastor.

Attendants were Mrs. Gordon Royer, Boyertown, sister of the bridegroom, and Guhl Burder, brother of the bride. Members of the immediate families attended the ceremony.

The bride wore a blue coat suit, with white accessories, and wore a corsage of orchids. She carried a white Bible. The bride is employed as an inspector at Stanley G. Flagg's plant, Stow.

The bridegroom is a graduate of Boyertown High school, class of 1940, where he starred as a baseball pitcher. He spent over two years in the Navy, 18 months of which was on overseas service. He is employed at Bethlehem steel.

After the wedding a reception for about 35 persons was held at the Burder home. The couple are spending a week in the Pocono mountains, and upon their return will reside with the bridegroom's parents.

Quadruplets are born only once in every 350,000 births.

BIRTHS

Ferne M. Heffner Becomes Bride of George J. Kaas

Ferne M. Heffner, daughter of Mr. and Mrs. Ralph B. Heffner, Star Route, Boyertown, became the bride of Mr. George J. Kaas, son of Mr. and Mrs. Peter T. Kaas, 641 Spruce street, Saturday morning at 10 o'clock in St. Aloysius Catholic church.

The double ring ceremony was performed by the Rev. John F. Campbell, assistant rector.

The bride wore a gown of white nylon trimmed in lace and a long veil falling from a crown of orange blossoms. She carried an old fashioned bouquet of white roses.

Miss Josephine Wetzel, as maid of honor wore a gown of yellow. The bridesmaids, Miss Mary Grofe, Miss Arline Herbst, and Miss Patricia Magee, were attired in blue. All the attendants carried old fashioned bouquets of roses. Young Barbara Houck attended as flower girl.

Mr. Robert Heffner performed the duties of best man, while ushers were Messrs. Joseph Kaas, John Mott, and Ralph Gift. Ring bearer was Thomas Jones.

Following a reception in Pheasant Land Park, the newlyweds left on a trip to Beach Haven, N. J., and upon their return they will reside in the home of the bride's parents.

A sweater was donated by Mrs. Irma Schwoyer and a lap robe by Mrs. Helen Kovach.

PERSONALS

Mr. and Mrs. Nick Pappadakis, 117 King street, have returned to their home after a week's stay at Harvey's Lake, Wilkes-Barre.

Luther Shaner, 261 Chestnut street, is convalescing at Temple University hospital, Philadelphia, following a recent operation. His condition is said to be satisfactory.

Mrs. Susan Fogely Vander-slice, Maricetta, widow of the late Dr. Charles Vander-slice, formerly of Pottstown; Mr. and Mrs. Lewis L. Gotschall, Johnsville, and Mr. W. W. Gotschall, Philadelphia, were recent visitors at the home of Mrs. Charles Guss, 424 North York street. Mrs. Guss is now visiting her nephew, Lewis L. Gotschall at his home in Johnsville, Bucks county.

trains on the spur can travel no faster than 15 miles an hour. They contended that crews' wages were excessive because of the slow trips.

Observers were of the opinion that this theory was blasted by Ewing who forced the railroad lawyers to admit that the crews were being paid at the same rates whether they were working on the spur or sitting idle in Phoenixville.

Railroad spokesmen pointed out that 1000 persons in all are served by the six-mile spur. This, they claimed, was not enough to support maintenance and salaries on the line.

The hearing, which lasted three and a half hours, was attended by 15 residents and merchants of the affected area.

The testimony offered will be further examined by ICC officials in Washington D.C. to determine if the Reading company has a reasonable case for withdrawing service on the line.

LABOR ACT COMMENT

(Continued from Page One)

In terms of reduced production. The chaotic conditions produced by the Taft-Hartley act will endanger our national economy."

Green declared that labor "will never become reconciled to this law."

The Taft-Hartley labor bill "has stabbed the heart of democracy," A. P. Whitney, president of the Brotherhood of Railroad Trainmen, declared.

Earl Bunting, president of the National Association of Manufacturers, hailed the Senate's action and called on management to "take the initiative" in smoothing the way for industrial peace.

"No law in itself will guarantee industrial harmony," Bunting said. "A fair law such as we now have will provide fertile soil, but industrial peace will flourish only if it is nourished by complete sincerity and good will on the part of both management and labor."

"When its employees desire to bargain collectively, management must do so in complete good faith. It must seek no unintended advantage from technicalities in the new law."

Summer Plans Made

By Christian Endeavor

Plans for the Summer months were made last night at a meeting of Pottstown branch, Christian Endeavor, in the home of Maurice Borneman, 353 North Hanover street.

Sixteen members were present, including representatives from First Presbyterian, First Baptist, Trinity Evangelical, Linfield Evangelical and Reformed, Trinity Evangelical, Roversford churches and Sanatoga chapel.

Summer plans will include the Summer social Saturday at the Roversford home of Clara Umstead; pre-camp service at Bobbie Mauger's Parkerford home on Aug. 13; the Labor Day meeting at Green Lane camp from Sept. 1 to 3, and the Camp Echo session at Ruth Strom's home, Linfield, on Sept. 22.

name, said he expected more closings before morning.

Alabama reported at least a dozen mines closed, among them the two largest in the state. They included most of the so-called "captive mines," those which supply fuel for steel and iron manufacture.

There was a possibility that additional mines may be closed in Alabama but since commercial mines there do not operate night shift, there was no indication whether they would open tomorrow.

Three mines were idle in West Virginia, under conditions explained neither by management nor the union. At the Industrial Collieries corporation mine at Barrackville, Marion county, employing 400, many of the men came to the mine for the night shift but later returned home.

Reports from Virginia were conflicting. Police at St. Charles said they had received information on stoppages at the Dunbar and Derby mines in Wise county and the Virginia Lee and Monarch mines in Lee county.

The Island of Singapore is 25 miles long and 14 miles wide.

HORSE SHOW —

(Continued from Page One)

New York City, classified as the largest event of its kind, and the Devon Horse Show, held annually at Devon, listed as second largest. The local event this season will be the third staged for the benefit of the Pottstown and Memorial hospitals.

Included among those who will show prize horseflesh will be Irene Randal, of Twin Spring Farm, Blue Bell. She will exhibit her hunter and her open jumper. Miss Randal has exhibited in every Bellewood show for the past nine years, and is only 16 years of age.

Although the coming Bellewood event is the eighth to be held, the association has been in existence for a longer period, having been forced to cancel one show due to the war emergency.

Jack D. Ward, of Ward Acres Farm, New Rochelle, N.Y., a prominent stable in horse circles, will show vari-gaited saddle and fine harness horses. Eleven four-legged performers from the C. Morton Smith stables, Upperville, Va., which arrived yesterday afternoon, will also be on hand to contribute to the affair. These horses came direct from a show in Baltimore.

The initial crack of the Bellewood event will send hoofs flying Friday noon when Pottstown children will get first look-see at the nation's champs during a specially arranged Children's Day program.

15 Youths Enrol In Soap Box Derby, Receive Instructions

Fifteen boys have already entered the Soap Box Derby sponsored by Spring City Lions club to be run off on Zion's hill July 26. The boys enrolled last night when the Lions club committee met at Spring City High school to give out instructions for building the racers to take part in the coming event.

The Lions club announced the club will furnish wheels and axles. Boys who enter will have only the box or body of the car to secure or build. The deadline for boys to enter is July 12.

Baby Jumps Off Scooter Just Before Car Hits It

Carl Roberts Jr., only two years old, displayed rare presence of mind yesterday morning, and that alone was credited with saving his life.

The child, son of Mr. and Mrs. Carl Roberts, 522 New Street, Spring City, was riding his scooter across a driveway between his home and that of Ambrose Keffer, adjoining, as Keffer was backing his car out of the garage toward New street.

The child, seeing danger, jumped off the scooter just as the car struck the scooter, demolishing the small vehicle. The scooter was so badly damaged it became entangled under the wheels, and it was necessary to jack up the car to extricate it.

Camp 22 PO of A To Elect Officers

Albert E. Bergantz, Former Royersford Florist, Found Dead

Albert E. Bergantz, 57, former florist, was found dead in his home, Wistaria Lodge, rear of 862 Walnut street, Royersford, yesterday about 12:30 o'clock.

Coroner W. J. Rushon, who investigated yesterday afternoon, issued a certificate of death due to natural causes and authorized removal of the body by a Royersford funeral director.

Bergantz, a veteran of World War I, formerly resided in Phoenixville. He operated a greenhouse here until about 12 years ago. He was unmarried and lived alone in the place.

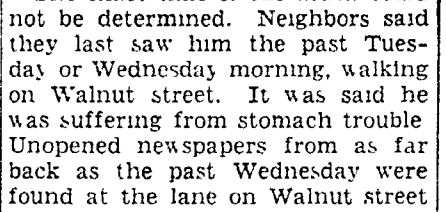

The exact time of his death could not be determined. Neighbors said they last saw him the past Tuesday or Wednesday morning, walking on Walnut street. It was said he was suffering from stomach trouble. Unopened newspapers from as far back as the past Wednesday were found at the lane on Walnut street leading to his property.

Guerin Tavalese, Ninth avenue and Washington street, was responsible for finding the body of the former florist yesterday. For the past several nights he failed to see a light burning in Bergantz' home and failed to see him around. Yesterday morning, after returning from work, he went to the home of Bergantz and called for him. Receiving no response he went to the door, which was unlocked, and found him apparently dead in bed. He immediately notified Chief of Police Bryson Turner, Royersford.

The police chief and Dr. E. Carleton Jameson went to the home. The physician expressed belief he had been dead 24 hours or more.

Bergantz came to Royersford soon after the end of the first World war, during which he served as a cook with the 28th division in France. He operated a florist business a number of years and discontinued the business some years ago. He last was employed at the Synthane corporation, Oaks. He was a member of Samuel Whitaker

Army Prepares Plane For Initial Flight

SEATTLE, June 23 (P)—The first Boeing B50—the Army's newest and fastest long-range bomber—was given taxiing tests today in preparation for its initial flight.

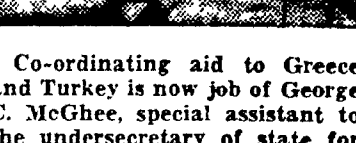

Boeing Aircraft company, releasing performance figures for the first time, said the new plane has a top speed "approaching 400 miles an hour" and a maximum range

"greater than that of the B29." The latter could fly approximately 3600 miles non-stop with usual bomb load.

The new bomber will cruise at about 300 miles an hour, Boeing said, compared to 230 for the B29. The B50 is no larger than its predecessor except for a higher tail, but the company said 75 percent of the B50's design was new.

Its four 28-cylinder, 3500-horsepower engines give it 59 percent more power than the B29.

The Army has ordered 133 B50s.

The leaders in the respective divisions of the YMCA Industrial Softball league rolled up two victories last night.

Maria Assunta, leading the American division, turned back the Glasgow Ramblers, 2-1, in a bit-terly fought contest at The Hill School while East End, pace set-ters in the National circuit, trounced El Chico, 16-2, to record its ninth win of the year. The game was played at Bader Field.

Maria Assunta hung up its sev-enth win behind Guy Sperat, who turned chalked up his fifth victory of the year with a single run in the final frame to break up a 1-1 dead-lock.

El Chico, winner of only one league game this season, jumped in to a two inning, 3-1 lead against East End but the winners started to roll with four in the third, four in the fourth, three in the fifth and four more in the sixth to chalk up an impressive win.

Second from rail is Hasty Victory, which finished second. The other two horses, Ermelia, on rail, and Sergeant Bill, wound up in a dead heat for show. The picture was taken at Arlington Park, Chicago.

Jim Ferrier-Chick Harbert Meet in PGA's Final Round

DETROIT, June 23 (AP)—Leisurely Jim Ferrier of San Francisco and strutting Melvin (Chick) Harbert of Northville, Mich., blazed their way with a trail of birdies today into the finals of the 29th National PGA championship.

The two newcomers to the door-step of the throne room of big time golfdom battle it out tomorrow over Plum Hollow's rugged terrain for the title surrendered in the first match play round by little Ben Hogan.

Ferrier, playing with almost mad-denning deliberation, gave Art Bell of Colma, Calif., a 10 and 9 beat-ing, and whipped par by nine strokes in the semi-finals today. Harbert, although scrambling much of the time turned back Vic Ghezzi, the 1941 champion from Kansas City, by 6 and 5, ripping five strokes off even figures.

Ferrier's huge margin tied the tournament record for semi-final play, Hogan having elimi-nated colorful Jimmy Demaret, this year's medalist, by the same score in 1946.

This is the second try for both Ferrier and Harbert in the play-for-pay classic. A year ago the Australian-born Ferrier set the qualifying record at Portland with 71-63-134, and batted Lawson Little and Sam Sneader of Houston, Tex., out of the match play before succumbing to Demaret, 3 and 2, in the third round. Harbert lost in the first 146 round, 3 and 1, to Newton Bassler, of Carmel, Calif.

Both finalists are 32 years old, and made names for themselves as amateurs before turning profes-sional. Harbert in 1939 and Ferrier in 1940.

While Harbert has never won a major fixture, Ferrier won the Australian Open twice and the down under amateur four times, all be-fore coming to this country in 1939 as a simon pure.

Ghezzi, usually one of the finest short iron players in the game, and an excellent putter, fell out of con-tention when he lost his touch.

Salvation Army Nine Halts Philadelphia

The Salvation Army Sunday school's baseball team was boasting about a victory over a Philadelphia team yesterday. The localites turned back the Salvation Army Headquarters corps nine of Phila-delphia, 10 to 1, on the East End diamond yesterday. Frank Leven-good fanned 13 of the visitors in a seven-inning tussle. Robert Kalis and John Mast banged out homers for the winners.

Doehler Combine Trips Steelmen In 4-2 Struggle

In a well played ball game, Doehler's came to life with single runs in the final four frames to whip USA 2177, 4-2 in a City Industrial league struggle last night.

Upwards to 400 fans saw the contest on Franklin Field as the Diecasters went to work on Curley Ricketts and gave Warren Hoffman his second victory of the campaign.

Hoffman, who needed relief from Del Ego, gave up only three hits, two of them by Harold Shaner and one a home run by Bruce Bernhart. Ego held the Steelworkers hitless in the one and two-third innings he worked.

Bernhart's circuit smash gave the USA combine a 1-0 lead in the second, but Doehler's knot-ted the count with a marker in the fourth on singles by Gerry Ego, Paul Pfeiffer and Del Ego.

Doehler's took a 2-1 advantage in the fifth on a walk, a sacrifice and a wild throw by Ricketts in attempting to pick the runner off second base.

An error and singles by Del Ego and Jim Ego produced the third Doehler run in the sixth, and USA made it 3-2 with a run in its half of the sixth.

Joe Jump walked, Harold Shaner singled and Joe Stutzel was hit by a pitched ball to load the bases and Del Hoffman to the showers. Ego got Bernhart to hit into a force play, with Jump scoring, and then forced Carl Sheldy to fly out.

ST. LOUIS, June 23 (AP)—With Enos Slaughter batting in four runs, the St. Louis Cardinals recovered their winning form tonight as they downed the league leading Boston Braves, 6 to 2. Slaughter's three-run homer in the second inning gave Red Munger all the margin he needed to rack up his sixth victory.

Consequences of New Taft-Hartley Law Will Be Felt by Nation at Different Times

WASHINGTON, June 23 (AP)—The Taft-Hartley labor law will have a heavy impact on industry, unions, working people, the Government, the federal courts, and the lawyers but not all at once.

Some effects will be felt Aug. 22—60 days from today, when the bill became law. Others will be cracking for the next year or more. Contracts covering millions of workers must be changed sooner or later, but existing contracts remain undisturbed for now.

For example, although the act prohibits new closed shop contracts, a closed shop contract now in existence can run on until its expiration date unless the employer himself wants to knock it out. And a closed shop contract signed between now and Aug. 22 can run one year without change.

Different parts of the act take effect at different times.

In effect now is the provision on strikes that imperil the national health or safety.

Under this provision President Truman—any day now if he wants to—can appoint a board of inquiry in the coal dispute. This would be the first step in the new procedure under which a federal judge could issue an injunction designed to block a coal strike for 80 days.

In addition, these important provisions took effect the moment the bill became law:

1. Strikes and boycotts for certain purposes became "unlawful" when occurring in interstate commerce. These purposes include (A) forcing an employer to help one union against another in a jurisdictional dispute, and (B) forcing one company not to deal with another company from now on, anybody suffering from those practices can sue for damages.
2. Unions and employers can sue each other in federal courts for violation of contracts (there have been certain limitations on such suits in the past).
3. From now on, unions and employers signing or renewing contracts for welfare funds or payroll deduction of union dues must conform to new rules with regard to those things. (Such contracts already in existence may run until they expire, but no longer than July 1, 1948.)

The thoroughly-rewritten national labor relations act will

Too Ill to Vote

Senator Robert F. Wagner (above), who fathered the Wagner Labor Relations act, was too ill in New York to attend yesterday's Senate session in Washington when the new labor bill became law. Wagner's position was announced as opposing overriding of the President's veto.

Cub Circus to Be Staged Tomorrow Night

A return engagement of the biggest little circus in Pottstown, based on a successful and similar noise last Summer, will materialize when Cub Scout Pack 53 will conduct loud and merry midway activities tomorrow night, it was announced by Cubmaster Leroy R. Moyer last night.

The gaily-decorated affair, to be held in the Fritz lot on Manatawny between Second and Third streets, is scheduled to be bigger and better than ever.

Nine kinds of refreshments, including homemade items, will be available while amused visitors participate in games with prizes. Seven sideshows and seven circus acts will round out the club's detailed plans, while the Green Valley Ranch boys will provide western music from 8 to 8:45 o'clock.

Tents, signs, and streamers made an appearance on the lot last night when pack members set to work

Dr. Eshelman to Speak At Meeting of Kiwanis

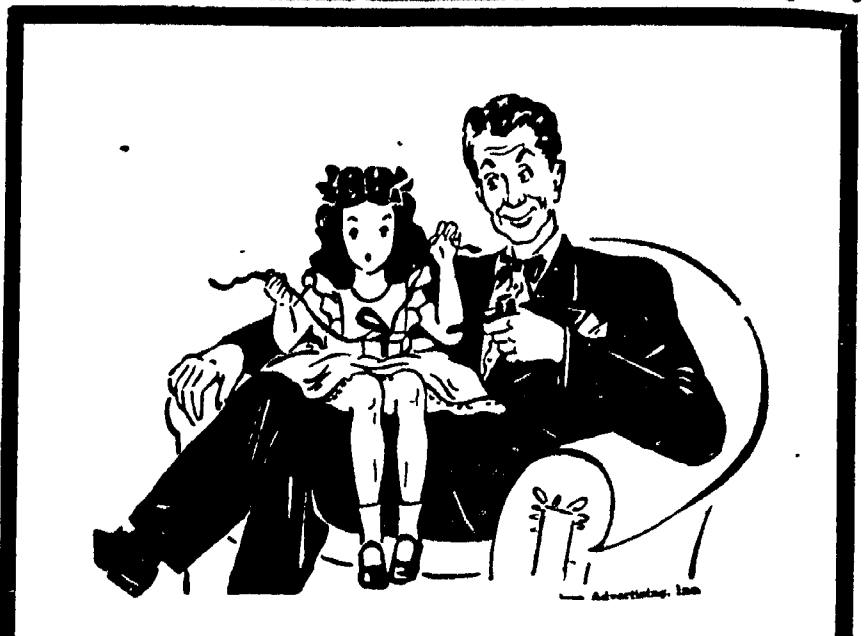

Dr. W. W. Eshelman, former president of the Kiwanis club and a past lieutenant governor of the organization, will be guest speaker at the meeting of the Kiwanis club tonight at 6:15 o'clock in the Elks' home.

Dr. Eshelman will speak on "Kiwanis Extension."

The club will be host to a delegation from the Stowe area which may be the nucleus for a new Kiwanis club in Stowe.

YOUNG GIRL STRANGLED

ALTOONA, June 23 (AP)—Phyllis Ann Rouzer, seven-month-old daughter of Mr. and Mrs. Philip J. Rouzer, was strangled to death today after her head was caught between two slats in her crib. Deputy Coroner Edgar G. Walls reported.

LUCKY STRIKE presents THE MAN WHO KNOWS—

THE TOBACCO BUYER!

"SEASON AFTER SEASON, at auction after auction, I've seen the makers of Lucky Strike buy ripe, fine-tasting leaf... that fine quality tobacco that makes a top-quality smoke."

FINE TOBACCO is what counts in a cigarette

BRICE LEECH IS RIGHT!... And like him, scores of other experts... who really know tobacco... have seen the makers of Lucky Strike buy "ripe, fine-tasting leaf."

After all, that's what you want in a cigarette... the honest, deep-down enjoyment of fine tobacco.

So remember...
